

DEADLINES

- Submission of Abstracts: 16 November 2009
- Notification of Acceptance: February 2010
- Submission of Full Paper: 19 March 2010

Online Submission at: www.pcimchina.com

PCIM China is an independent, clearly defined event with full integration and a constant exchange between its conference and exhibition. Conference delegates, exhibitors and visitors meet under one roof in Shanghai 's Everbright Convention & Exhibition Center.

Experts from industry and academia are invited to present their latest developments and the likely future trends at PCIM China 2010 Conference. PCIM China Conference is one of the most leading conferences in China addressing the fields of Power Electronics, Intelligent Motion and Power Quality / Energy Management.

The conference will be a meeting forum for researchers, developers and specialists from industry and academia to discuss and offer possible solutions for flexible, fast, reliable, compact and economical power conversion.
